

Marnie Boyd

Assistant Director for Engineering Studies at Chicago State University

Marnie Boyd is the Assistant Director for the Engineering Studies Program at Chicago State University. Miss Boyd has provided 23 of service to the institution. She started out as a student aid for the Office of Engineering Studies and later became the coordinator for the Pre-Freshman Program in Engineering and Science. Currently she holds the position as the Assistant Director of Engineering Studies. Her job responsibilities include advising college students on the courses that they need to complete the Engineering Studies Program at Chicago State University and assisting students to transfer to other universities that have a full engineering programs. The Engineering Studies Program at Chicago State University is a two year program and students have to transfer either the Illinois Intuition of Technology or the University of Illinois at Chicago. In addition to working with the Chicago State University College students, Ms. Boyd is also the advisor for the Pre-Freshman Program in Engineering and Science (PREP). PREP is a STEM Program that provides educational, motivational, and recreational activates to pre-college students in grades 6th -12th. As the advisor for the PREP Program, Ms. Boyd develops curriculum, prepares lessons, manages the PREP six week summer program, manages program projects during the academic year, supervises staff for the program, balances the budget and mentor students. Under her director, the PREP Program has received many awards which included the National Society of Black Engineers Pre-College Program of the Year and The Ten80 Education Student Race Competition Grand Nationals Award.

Other program Ms. Boyd has been involved in includes the Coordinator for the Teen Program for Family Rescue - a domestic violence organization, Girl Scout Leader, and manager of the Best Boys Around – a program sponsored by Chicago Cares. She earned a bachelor's of Sciences from Chicago University.
